

## Enhanced Plug-in Compact Fluorescent Lamps

GE's new and improved plug-in lamps provide a way to achieve even greater savings with CFLs. They offer extra long life, improved performance and better fit. GE offers a broad range of plug-in products for a variety of applications, including a full line of TCLP compliant GE Biax<sup>®</sup> products.

### Extra long life – 66% longer

These products are now rated at 20,000 hours when burned at 12 hours per start.

### New base shape

GE Triple Biax<sup>®</sup> products now feature a hexagonal base for a better fit into small applications.

### TCLP compliant

All GE Biax<sup>®</sup> products are now TCLP compliant (Ecolux<sup>®</sup>): Low Watt Biax<sup>®</sup>, Double Biax<sup>®</sup>, Triple Biax<sup>®</sup>, High Output Biax<sup>®</sup>.

### Improved thermal performance

32W and 42W TBX product now offer improved performance in high airflow fixtures.

### GE quality –

and reliability throughout.

Biax and Ecolux are registered trademarks of the General Electric Company.
